

Mr. Shesh Kumar Upadhyay
Lifetime Membership Number: HYF/LM/015

Telecom & IT Professional | Founder & Director, Insys Technologies

Mr. Shesh Kumar Upadhyay is a seasoned Telecom and Information Technology professional with more than four decades of rich and diverse experience in the telecommunications and IT sectors. He is presently serving as the Founder and Director of Insys Technologies.

Throughout his distinguished career spanning over 40 years, he has acquired extensive cross-functional expertise in Operations Management, Project Management, Business Development, Customer Relationship Management (CRM), and the implementation of Citizen-Centric Projects across multiple states and zones. His leadership capabilities have enabled him to successfully manage large-scale projects catering to diverse geographical regions and stakeholder requirements.

Mr. Upadhyay has worked across varied organizational environments, including the Government of India, Public Sector Undertakings, and the Public Limited IT sector. His professional journey includes significant contributions to organizations such as Overseas Communication Service (now known as VSNL), Videsh Sanchar Nigam Limited (VSNL), and Indian Telephone Industries Limited (ITI Ltd.).

A strong advocate of continuous learning and professional development, he has actively participated in numerous conferences, training programs, and seminars focusing on emerging technologies, project management practices, and business development strategies.

He holds a Master of Science (M.Sc.) in Electronics, which has provided a strong academic foundation for his successful career in the rapidly evolving fields of telecommunications and information technology.

With his vast industry experience, strategic vision, and commitment to technological advancement, Mr. Shesh Kumar Upadhyay continues to contribute significantly to the growth and development of the Telecom and IT ecosystem.
